

Replacement Parts

Part	Amount	Description	Replacement Part #
1	3 pcs	44" U-Shaped Tubes	2770Z9
2	2 pcs	Adjustable Tube	2770Z11
3	2 pcs	26" Straight Tubes	2770Z3
4	2 pcs	26" Straight Tubes	2770Z4
5	2 pcs	34" L Shaped Tube	2770Z5
6	2 pcs	3.5" Straight Tubes	2770Z6
7	4 pcs	2" Butterfly Screws	2770Z7
8	2 pcs	2 3/8" Butterfly Screws	2770Z8
9	8 pcs	Hooks	2770Z1
10	4 pcs	Ground Stakes	2770Z2
11	1 pc	Net	2770Z2
12	1 pc	Target Ribbon	
13	1 pc	Pitch Target	
14	1 pc	Collection Bag	
15	22 pcs	Bungees	2770Z13

Step 1:
Make net frame side by placing part (3) into part (4) and snapping push pins into place.

Step 2:
To make the frame for the net, use one of the "U" shaped tubes, part (1), and slide four of part (9) onto part (1). Then place a side pole from step 1 into the open end of part (1). Take the second side pole and place into the other open end. Next, use the second "U" shaped tube, part (1), and attach two ends of the side poles. You should now have a rectangle shape.

Step 3:
First place 4 hooks part (9) on part (1) as indicated in photo. To make the base, use the third "U" shaped tube, part (1), and place part (5) into one of the open ends. Slide 4 ground stakes, part (10), onto assembly. Position ground stakes as shown. Repeat on other side. Next, attach side supports part (6) to base on outside of the "U" shaped tubing where the pre-drilled holes are. Make sure the pre-drilled holes are lined up on the "U" shaped tubing and part (5) before attaching part (6). Attach by using bolt and wing nut part (7). Repeat on other side.

Step 4:
To attach net frame to base assembly, take the net frame and place between the open end of base. Line up the pre-drilled holes on the net frame to part (5) on the base assembly and attach by using bolt and wing nut part (8) on both sides. Next, use part (2) and attach to the top outside of the net frame where pre-drilled holes are. Make sure the pre-drilled holes are lined up on the "U" shaped tubing and you attach the narrower end of part (2) to the top of the net frame using part (7).

Step 5:
Attach the bottom of part (2) to the back of the base by inserting part (6) into part (2) by lining the pushpin up with the pre-drilled hole.
