# GAME INSTRUCTIONS:

## RULES:

AQUATICZ™ Basketball by Franklin® is designed to be played in the water and is a fun twist on some of our other basketball games. Players are trying to reach a score of 21. Players choose who will be shooting first. The player first up to shoot will choose the location their first shot will be thrown from. This location will be the same location used by all the other players on their first throw. When a player scores a point, they will choose the next location to shoot from and they will be the first ones to shoot.

## SCORING:

Each time the ball lands in the net, it is a potential one point. Players are able to snag points from one-another. For example, if there are 3 players (A,B,C) and player A chooses the shot location, shoots the ball and the ball goes through the net they have scored one point. However, the following two players (B,C) have a chance to snag player A's point. To do this, player B will shoot the ball from the same location that A did. If player B gets the ball through the net, then player B will snag player A's point. When this happens, player C now has the chance to steal player B's point. If both players B and C miss when trying to steal player A's point, player A will score 1 point. In the case that no players score points the person that shot first may choose another location to shoot the next round from. Players will play until one of the players reach 21.
