AGS HIGH DENSITY

The AGS ACTIVE GRAVITY SYSTEM is a patented design that uses a superior no-bounce technology to sustain a lower center of gravity in each ball. A proprietary micro-pellet dampening material suspended within a liquid keeps the ball from bouncing for better passing, shooting and control. (Patent No. 6,645,098)

WHAT IS FLOORBALL?

Floorball is one of the fastest growing sports in Europe and is widely gaining popularity across North America. The game shares many similarities with ice & street hockey, and is typically played with six players on each team including a goalie.

Floorball sticks are constructed of glass fiber shafts with vented ABS blades, and are designed to be lightweight and durable. The balls are made of high impact plastic, and are designed to comply with official standards for size, weight and design.

WHY FLOORBALL?

Versatility and Accessibility…

Floorball can be played on a variety of surfaces including gym floors, smooth asphalt, or rubber sport flooring. The number of participants can vary, and games can be played with or without goalies. As a result, it’s become increasingly more popular in U.S schools, community groups and organizations.

The sport is easy to pick up, and great for all ages. The lightweight and durable equipment makes it the perfect solution for promoting a healthy lifestyle, and provides a new, fun, and accessible way to enjoy the sport of hockey.
**NHL® 90CM FLOORBALL STICKS**
- Tapered glass fiber shaft w/ rubberized grip
- High-impact ABS blade (straight / no curve)
- 90cm intermediate shaft size – great for all ages

**NHL® 90CM FLOORBALL STICK & BALL SET**
- Set Includes: (1) Floorball Stick and (1) Floorball

**NHL® 90CM FLOORBALL STICK**
- (1) Floorball Stick

**NHL® 72MM FLOORBALLS**
- Official size and weight floorball: 72mm / 23g
- Molded high impact polymer material
- Complies with international floorball specifications
