STEP 3

PARTS

NOTE

Thread in the Support Bolt (#7) downward so the head of the bolt touches the frame. Remarks: it is important to not over tighten the Support Bolt (#7) but to loosely screw in the bolt at this point.

NOTE

Support Bolt (#7) is used to level playing surface once the table is flipped over.

STEP 4: FLIP TABLE!

NOTE

Grab the table on the end with the support bar, lifting up, and rolling the table on to the angled legs.
Next tighten the Support Bolt (#7) to ensure a level playing surface. It is important to do this on level ground.

STEP 5

PARTS

NOTE

Push Table Tops (#1) together. Adjust the Leg Levelers (#4) until entire table is level. Install Washers (#9) on each threaded end of the net Metal Posts (#3). Insert the threaded ends of the net Metal Post into the Table Top (#1). Secure with Nuts (#6). Slide Net (#5) over the posts.
Assembly is completed.
