PARTS

E		x1
F		x1
G		x1

NOTE

Turn the **Red Hanging Tee (F)** to its front, and then slide the **Red Cap (G)** over as shown.

Caution: Make sure this piece is assembled correctly. Failure to assemble correctly will result in a red piece that is not properly locked into place on the **White Arm (E)**. If your red piece seems like it isn't locking into place securely, then this step has been assembled incorrectly. Take a look at the images to the left to understand which side is the front and which side is the back.

Once the **Red Cap (G)** has been assembled to the **Red Hanging Tee (F)**, this can be attached and locked to the **White Arm (E)**. The Red Hanging Tee and Red Cap should click & lock into place if assembled correctly. If you find that this Red Hanging Tee comes off of the White Arm easily, then the pieces have been assembled incorrectly.
