CUSTOMER SERVICE COMMITMENT

Thank you for purchasing this Franklin® product! In the event that the product you've purchased has missing or damaged parts, please contact us at:

parts@franklinsports.com
or
Visit our website at: www.franklinsports.com

If possible, please include product part number and parts description so we can best assist you.

WE'RE HERE FOR YOU!

PLEASE DO NOT RETURN THIS PRODUCT TO THE STORE IT WAS PURCHASED FROM.

WE ARE COMMITTED TO FULFILLING ALL REPLACEMENT PART NEEDS IMMEDIATELY.

Thank you for your continued support, and welcome to the #FranklinFamily!
SAFETY INSTRUCTIONS

FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS MAY RESULT IN SERIOUS INJURY AND/OR PROPERTY DAMAGE AND WILL VOID WARRANTY.

Owner must ensure that all players know and follow these rules for safe operation of the system.

To ensure safety, do not attempt to assemble this system without following the instructions carefully. Check entire box and inside all packing material for parts and/or additional instruction material. Before beginning assembly, read the instructions and identify parts using the hardware identifier and parts list in this document. Proper and complete assembly, use, and supervision are essential for proper operation and to reduce the risk of accident or injury. A high probability of serious injury exists if this system is not installed, maintained and operated properly.

- 2 capable adults are recommended for this operation.
- Check base daily for leakage. Leaks will cause system to fall.
- Assemble the pole sections properly. Failure to do so could cause the pole sections to separate during play or transport.

Most injuries are caused by misuse and/or not following instructions. Use caution when using this system.

ASSEMBLY INSTRUCTIONS

GENERAL NOTE

1. Remove all components from the shipping carton. Remove all protective wrap and layout all components on the ground.

2. Ensure you have all components shown in the parts list.

PARTS

C x1
D x1
K x1

NOTE

Attach the Bottom Pole (D) on the groove on the Base (C); then secure it by using the Plastic Nut (K).

NOTE:
Make sure that the two holes on the pole are positioned on the sides.

STEP 1

ITEM#: 91017X

STEP 2

ITEM#: 91017C1X

PARTS

C x1
D x1
G x2
O x2
P x2
1 x2

NOTE

Attach the Support Arms (G) on the Base (C) by using 2pcs of Bolts M8x20mm (1) through 2pcs of Washers (P) and 2pcs of Nuts (O).

NOTE:
Do not fully tighten bolts during this step. It will allow for easier assembly if they are tightened later.
PARTS NOTE
STEP 3 & 4
Attach the Support Arms (G) to Bottom Pole (D) by using 1pc of Bolt M8x60mm (4) through 2pcs of Washers (P) and 1pc of Nut (O).

Insert the Axles (H) into Wheels (J) and push them into the grooves of the Base (C).

PARTS NOTE
STEP 5
Attach the Rim (B1) to the front side of Backboard (A) using 4pcs of Bolts M8x35mm (2) through the Rim (B1), Backboard (A), Y-Bracket (I), 8pcs of Washers (P), and then lock them with 4pcs of Nuts (O).

PARTS NOTE
STEP 6
Attach Net (B2) to Rim (#B1) as shown.

ITEM#: 91017X 91017C1X
**STEP 7**

Slide the **Top Pole (F)** through the **Middle Pole (E)** until it comes out from the top of the middle pole. Make sure there are two holes on each side of the top pole protruding from the middle pole for backboard assembly.

Insert the **Top Pole (F)** up inside the **Middle Pole (E)**. Insert the square **Bolt M8x65mm (5)** and lock it with the **Triangle Nut (N)**.

**NOTE:**

1. Pole (F) comes packaged inside pole (E). Do not separate. Only need to slide pole (F) up through pole (E).
2. The square bolt M8x65mm (5) has a position fix point at the top of bolt. It helps secure the pole. Make sure this is well inserted into the pole.
3. Check the warning label on the middle pole (E), and make sure it faces user/front and the triangle nut (N) is at the back.
4. The remaining holes in the Top Pole (F) are for height adjusting, including: 5.5ft (1.69m), 5.9ft (1.79m) and 6.4ft (1.95m).
**STEP 8**

Attach the **Top Pole (F)** inside the **Y-Bracket (I)** at the joint using 2pcs of **Bolts M8x55mm (3)** and 4pcs of **Washers (P)**. Lock it with 2 pcs of **Nuts (O)** and insert the **Cap (L)** into the **Top Pole (F)**.

**PARTS**

- E x1
- F x1
- I x1
- L x1
- O x2
- P x2
- 3 x2

**NOTE**

**STEP 9**

Attach the **Y-Bracket (I)** on the backside of **Backboard (A)** by using 2pcs of **Washers M6 (7)** and 2pcs of **Bolts M6x8mm (6)**.

**PARTS**

- A x1
- I x1
- 6 x2
- 7 x2

**NOTE**
STEP 10

Insert the Middle Pole (E) inside the Bottom Pole (D) and secure by using Bolt M8x55mm (3), 2pcs of Washers (P), and 1pc of Nut (O).

NOTE:
Make sure all hardware is fully tightened before moving or playing.
STEP 11

Adjust backboard to lowest position.

While holding pole and lifting base, carefully lean system forward until wheels touch ground.

While holding pole and base, roll system to desired location.

Stand pole upright and set base flat on ground.

ALWAYS check to make sure system is stable in new location.

Place base where it will be used. Unscrew and remove base cap.

Pour sand while base is flat on the ground, and then tip forward to allow even distribution.

Repeat the action until the base is full of sand.

Once full, replace base cap.

NOTE

WARNING:

For safety reasons, we recommend that sand be used instead of water to fill the base. If a leak develops, water could run out unnoticed, allowing the system to fall over, resulting in serious injuries, or property damage. If using water, check the base carefully for leaks. If a leak is found, lay the system down on the ground and call customer service. Do not use, stand up, or play on a leaking system.

MOVING THE SYSTEM

WARNING:

The system must only be moved by at least 2 adults that are capable of handling weight. DO NOT allow children to move unit.

a. Adjust the system to its lowest position and lock in place to prevent the height mechanism from adjusting.

b. Standing in front of the unit, pull the pole down until it is balanced on the 2 wheels.

c. Move the unit to the desired location and carefully lower the unit back down.

CAUTION:

The system must only be moved when balanced on the wheels. Sliding the unit any other way may cause damage to the base and could result in sand leakage and/or system tipping over.
YOU ARE NOW READY TO PLAY!
